

# CROP SUMMARY / CURRENT YEAR FIELD PLAN

Name \_\_\_\_\_ Account # \_\_\_\_\_ Year \_\_\_\_\_

Land eligible for certification requires management without the use of prohibited substances for 36 months prior to the harvest of a crop to be sold, labeled or represented as organic. MOSA requires three years of field history information for all land that is newly requested for certification. In addition to the Crop Summary/Current Year Field Plan form, for any new land requested for certification, submit a Prior Land Use Declaration (PLUD) form if land was under someone else’s management during the past 36 months or a 3 Year Field History form if the land has been under your management.

Is all of your land under organic management?  Yes  No Do you plan to transition more land into organic production?  No  Yes

If yes, describe your transition plans: \_\_\_\_\_

1. Complete the Current Year Field Plan (see next pages) for all organic, transitional, and conventional land under your management.
2. Using the completed Current Year Field Plan, calculate the total number of acres of each crop type and list in the Crop Summary table below. In the Projected Yield columns, be sure to provide the projected yield for each crop, including organic, transitional, and conventional crops, as applicable.  
Vegetable producers: A complete list of crops grown, including annual seedlings/transplants and perennials, is needed on an annual basis in order to populate your organic certificate. If your list does not fit on this form, you may submit the list in an alternative format. However, the list provided must include all of the information requested on this form.

## CROP SUMMARY

CROP(S)	FORM OF HARVEST (FRESH PICKED, GRAIN, SILAGE, ETC.)	ORGANIC ACRES	TRANSITIONAL ACRES	CONVENTIONAL ACRES	PROJECTED YIELDS			FOR SALE? (YES, NO, SOME, MAYBE)
					ORGANIC	TRANSITIONAL	CONVENTIONAL	
		Total =	Total =	Total =

Year \_\_\_\_\_

Use a separate line for each field and list fields in the same order from year to year. Do not group fields on the same line unless the fields are always managed as one field. If you double crop, interplant, or grow multiple varieties of vegetables in the same field, list all crops in the same row. Be sure that all Field IDs match your field map(s).

**CURRENT YEAR FIELD PLAN**
