

8. Describe the training the person(s) harvesting have received.

Question(s) not listed are for office use only.

MINIMIZING NEGATIVE ENVIRONMENTAL IMPACT NOS §§205.201, .207(b)

The National Organic Standards require that wild crops shall be harvested in a manner that assures that harvesting will not be destructive to the environment and that growth and production of the wild crop will be sustained.

11. Describe your harvesting practices, including any equipment used. Explain practices for each type of plant harvested.

12. What measures do you take to prevent depletion of the population of wild crops harvested and adverse impacts on biological diversity in these areas? Explain measures taken for each type of plant harvested.

13. What measures do you take to prevent soil erosion and other environmental disturbance in these areas? Explain measures taken for each type of plant harvested.

14. How do you monitor the effectiveness of these measures?

15. List any endangered terrestrial or aquatic plants or animals that occur in the harvest area, or indicate "none".

16. **COMPLETE:** Is your Organic System Plan complete?

Yes No
