Use this form to provide MOSA with a list of all animals requested for certification. If this information is available in another format, you may substitute that list for this form. However, other formats must include animal ID, date of birth, organic status of the animal including for all dairy animals, their transitioned status, and all reasons animals are removed from the farm. Poultry do not need to be individually identified. Use the Notes column to describe any other pertinent information regarding slaughter eligibility (e.g. use of parasiticides, date of purchase and source, ear tag color, OPT Grass-Fed information, etc).
